$$3 \cdot 40 = 120$$

Diagram showing the multiplication process: 3 multiplied by 40 equals 120. Arrows indicate that 3 multiplied by 4 equals 12, and then a zero is added to the result.

$$30 \cdot 40 = 1200$$

Diagram showing the multiplication process: 30 multiplied by 40 equals 1200. Arrows indicate that 30 multiplied by 4 equals 120, and then two zeros are added to the result.

$$3000 \cdot 4 = 12000$$

Diagram showing the multiplication process: 3000 multiplied by 4 equals 12000. Arrows indicate that 3 multiplied by 4 equals 12, and then three zeros are added to the result.
